[Rubalghamdi.com](http://Rubalghamdi.com)

## SUMMARY

---

UX/UI Designer with a Computer Science background and hands-on experience in web development and system analysis. I design user-centered interfaces while understanding the technical constraints behind them, enabling better collaboration between design and development.

## WORK EXPERIENCE

---

### Freelance UX/UI & Web Developer | Remote

Apr 2025 – Present

- Designed and delivered custom UX/UI Figma designs for websites and applications.
- Developed and customized websites using Shopify, Wix and simple native code.
- Collaborated with clients to improve user flows and enhance customer experience.
- Provided technical support and updates for small businesses' websites.

### Cooperative Training Program – Princess Nourah University | Riyadh

Jan 2025 – Apr 2025

- Completed UX/UI wireframes and prototypes for multiple projects.
- Conducted system analysis and tested software functionality.
- Collaborated with a team to improve web responsiveness and user experience.

## EDUCATION

---

### Apple Developer Academy | Riyadh

Sep 2025 – Present

- Intensive training in software development, app design, and innovation.
- Hands-on projects using Swift, iOS development tools, and design thinking.
- Collaborated in multidisciplinary teams to develop real-world digital solutions.

### Bachelor of Computer Science PNU | Riyadh

Aug 2021 - Apr 2025

- Princess Nourah Bint Abdulrahman University
